Returned to applicant for correction.....

Corrected application filed.....

AUG 11 1970

Map filed.....

The applicant Fairfield Ranches  
of Route 2, Box 165, Gardnerville, County of.....  
State of Nevada 89401....., hereby make s. application for permission to appropriate the public  
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-  
tion; if a copartnership or association, give names of members.) A Copartnership of Joseph T.  
Banner, Frank C. Boxler and Ron Kincade

1. The source of the proposed appropriation is Underground  
Name of stream, lake or other source.

2. The amount of water applied for is 6.0 second-feet  
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....acre-feet

3. The water to be used for Irrigation and domestic  
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated) 400 acres

(b) Stockwater (state number and kinds of animals to be watered).....

(c) Other use (describe fully under "No. 11. Remarks").....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point: in the SE $\frac{1}{4}$  NE $\frac{1}{4}$  Sec. 25,

T. 10 N., R. 22 E., M.D.B.&M., from which the east one quarter  
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,  
corner of said section 25 bears S. 24°48'30" E., 487.86 feet.  
it should be stated.

6. Place of use. Portions of NE $\frac{1}{4}$  section 25; SE $\frac{1}{4}$  section 24; T. 10 N., R.  
Describe by legal subdivision, if on unsurveyed land it should be so stated.

22 E...; NW $\frac{1}{4}$  section 30; SW $\frac{1}{4}$ , NE $\frac{1}{4}$ , E $\frac{1}{2}$  NW $\frac{1}{4}$ , and NW $\frac{1}{4}$  SE $\frac{1}{4}$  section 19,

T. 10 N., R. 23 E., M.D.B.&M.

7. Use will begin about January 1st and end about December 31st, of each year.  
Month Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans  
and specifications of your diversion or storage works.) Well, pump and ditches

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works.....\$10,000.00
10. Estimated time required to construct works.....2 years
11. Estimated time required to complete the application to beneficial use.....5 years
12. Remarks.....

Applicant Fairfield Ranches

Virginia City, Nevada 89440

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will depend upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. A substantial weir or other measuring device must be installed and measurements of water use kept. The well shall be equipped with a two-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. In the event the well from which the proposed diversion is to be made is reamed or otherwise enlarged, or re-drilled, no perforations shall be put in the casing until after the well is completed and the log available for study. Perforations shall not start less than 100 feet from the surface unless the log shows a satisfactory confining formation nearer the surface. Since the proposed point of diversion lies within lands subject to inundation in the event Hoyer Canyon Dam is built, the permittee shall take all necessary precautions, subject to the approval of the State Engineer, to prevent drainage of the surface water impounded into the groundwater reservoir. The state retains the right to regulate the use of the water herein granted at all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 6.0 cubic feet per second but not to exceed a yearly duty of 4.0 acre feet per acre/irrigated from any and/or all sources.

Actual construction work shall begin on or before October 16, 1971

Proof of commencement of work shall be filed before November 16, 1971

Work must be prosecuted with reasonable diligence and be completed on or before October 16, 1972

Proof of completion of work shall be filed before November 16, 1972

Application of water to beneficial use shall be made on or before October 16, 1975

Proof of the application of water to beneficial use shall be filed on or before November 16, 1975

Map in support of proof of beneficial use shall be filed on or before November 16, 1975

Commencement of work filed OCT 28 1971 IN TESTIMONY WHEREOF, I Roland D. Westergard,  
Completion of work filed..... State Engineer of Nevada, have hereunto set my hand and the seal of  
Proof of beneficial use filed..... my office, this 16th day of April,
